Halloween at School By LKKB Newspaper Team

October, 25th 2011 students and teachers celebrated Halloween in our school. It was special because we could dress up like ghosts, wizards, witches, devils and other creatures. Students felt happy because they got lots of candies by saying "trick or treat". For example, that day, Kelvin Chiu had forty candies.

Students got their candies mostly from teachers by chanting "trick or treat". There were eye ball candies, lollipops, burger candies, ghost marshmallows and many more which were all very yummy. The eye ball candies and ghost marshmallows were our favourites because they were soft and delicious.

We had a Puzzle Booth and a Question and Answer Booth. Students liked the Puzzle Booth the best because they could see scary monster pictures. They got sweets after playing the games.

Joey Zhou wore an angel costume and she looked beautiful. Mr. Zino Ng dressed in an angel and devil costume which was very interesting. He wore a pair of black wings and red horns. He even tried to scare students with his red devil fork.

We learnt how to get candies and some new English words: mummy, vampire, wizard and witch.

Charity Walk By Oscar Pun (6A)

The 6th of November was a grand day for Lok Sin Tong Leung Kau Kui Primary School (Branch). It was the day we had our Charity Walk. There were many other branches of Lok Sin Tong Schools that also joined in this Charity Walk, for example, Lok Sin Tong Lau Tak Primary School. There was a group of charity people called, "Sugargirls" who sang a lot of songs for charity.

The walking distance was from Sha Tin's Racecourse to Sha Tin's Swimming Pool. We had a great walk and arrived at our destination safely.

Christmas Party By Jason Chan (6A)

Last Wednesday, I went to the English Room, 317 and we had a Christmas Party. We had a happy day.

First, we put the food on the table. We brought some prepared snacks for the party. We shared the snacks together.

Next, we ate the food. Michael said he had a special surprise that day and he brought pizza for us. We felt happy.

Then we played a game. Although, I don't know what the name of the game we played was, we played happily.

Finally, we said goodbye to Michael. We had a happy day because we all joined in the games and party.

Hobbies By Joyce Lau (6A)

Many people have hobbies. There are many different hobbies like collecting things, sports, dancing and others.

A lot of girls like cooking. They like to make desserts like cakes, cookies and jelly. I like this hobby too. If I learnt how to cook food, I think that the food I made would taste very yummy. I like baking cakes the best because I like eating sweet things.

How about the boys? The boys have many different hobbies. Many like to play football the most. When they are bored, the boys often go to the playground to play football. They think this sport is exciting.

There are many other hobbies as well. In the olden days, many people liked collecting things like stamps, stickers and coins. My grandpa is a good example. He collected stamps for many years. He has about one hundred stamps now. I think he likes this hobby very much. Even now, he still keeps on collecting stamps.

I also have many hobbies. I like drawing, cooking and collecting things. However, I like drawing the most because I can draw beautiful pictures easily. I will follow my grandpa's example and keep up with my hobbies. I think having hobbies makes us happy.

My favourite teacher By Chris Ng (4A)

My favourite teacher is Miss Shirley Yeung. She is patient. She teaches me English phonics. When she teaches me and my classmates, we feel happy. I think that she is an interesting teacher. For Halloween this year, she dressed up as a devil and she wore devil horns on her head.

My best friend By Angel Chau (5A)

My best friend is Megan Liu. She has long hair, big eyes and a small mouth. She is taller than me. I think she is clever and hardworking. She likes to play with her classmates. She is my classmate because she also studies in 5A. During recess time, I will play games with her.

Study Tips By Moon Ng (6A)

Many pupils dislike studying. Why? It is because they think that studying is difficult.

However, if you can learn some of these study tips, you will find it easier to study. First, you need to plan and allot your time carefully. As an example, you can study for one hour and then take a rest for ten minutes. In this way, you will not feel so tired. It is also a good idea to start studying early before the test or exam. If you start late, you will find it hard to study. This is because you will have many things you need to remember.

Finally, you can't watch TV and study at the same time. This will distract you. If you can use these study tips, it will help you study and you will think studying is fun.

My best friend By Megan Liu (5A)

My best friend is Kelly Leung. She is ten years old. She is tall and slim. She has long hair, big round eyes, a small nose and a big mouth. She is kind and helpful. She always plays with me. Her favourite subject is English. I like it too.

The Honest Woodcutter By Kong Tsz Long (6A)

Once upon a time, there was a woodcutter called Harry Potter. He lived in a "Magic house". He always used his axe to cut trees in a forest near a lake.

One day, when he was cutting trees in the forest, he threw his axe into the lake because he was careless. Suddenly, a fairy appeared when he was looking for his axe. He told the fairy that he threw his axe into the lake carelessly and asked the fairy to help him find the axe in the lake, so the fairy flew into the lake and looked for his axe. The fairy found three axes. There was a gold axe, a silver axe and an old axe. So, the fairy asked him, "Which is yours?" He answered the fairy, "My axe is old, I think the old axe is mine. Thank you!" The fairy thought he was honest. So, the fairy said, "You are so honest, I will give you all of these three axes to you. It is a gift." The woodcutter was very happy so he took the three axes away and thanked the fairy for helping him find his axe.

From then on, the woodcutter used the gold axe and the silver axe to cut trees. He sold the old axe to get money so he could buy food to eat.
