Amazing Dinosaurs!

Dinosaurs were amazing! Did you know...

Dinosaurs were around millions of years ago. The time they ruled the world was called, 'The Age of the Dinosaurs'.

'Dino' is an old way to say 'terrible'. 'Saur' is an old way to say 'lizard'. Dinosaur means 'Terrible Lizard'.

Meat-eating dinosaurs are called carnivores. Plant-eating dinosaurs are called herbivores.

Birds are descendants of dinosaurs. They are basically small and cute dinosaurs.

Tyrannosaurus Rex, or T-Rex for short, was the most dangerous dinosaur to ever walk on Earth. It has, or had, the strongest bite of any animal.

It is thought that an asteroid from outer space hit earth and changed the Earth's climate in a big way. Plant-eating dinosaurs soon had nothing to eat and when they died, the meat-eating dinosaurs ran out of food too. Only a few dinosaurs could survive. The Age of the Dinosaurs was over.

Our Newspaper Team and Fun Class students have helped draw some amazing dinosaurs.

Tyrannosaurs Rex

5B Owen Zhang Man

This is a tyrannosaurus rex. It is also called T-Rex. It is huge and powerful. It is a carnivore. It has sharp and pointed teeth.

Tyrannosaurs Rex

By 2B Eric Lin Ki Sum

This is a T-Rex. It eats meat. It is very big.

Spinosaurus

By 4E Michael Wong Lok Yan

Spinosaurus is a type of carnivorous dinosaur. It is the largest carnivorous dinosaur in the Cretaceous Period. It is on the top of the food chain. It can swim.

Diplodocus

By NET teacher Samuel

Diplodocus is a plant-eating dinosaur. It is very tall so it can reach the top of trees. Its tail is very long too. It moves slowly.

Students' Voice over Heated Debates

On 14th May, LKKB Students' Voice Team had a debate over some heated topics. The following are some of our team member's viewpoints.

Team A

4A Lucky Chen Tsz Ki
4B Samson Tang Shue Sum
4E Kimmy Yan Zong Kai
4E Kelly Yung Wing Shan
5A Cindy Chen Xinhui
5A Yan Cherish
5A Cyrus Leung Chi Yik
5B Owen Zhang Man

Team B

4B Taki Sin Nok Wai
4B Kiki Cheng Pui Ki
4C Summer Wong Sen Yu
4E Michael Wong Lok Yan
5A Ricky Mak Ham Chi
6B Lily Ouyang
4B Jason Tang Cham Sum

Should People Receive the

?

For (Team A)

- It protects us from being infected. Additionally, after receiving the vaccination, we can travel freely.
- Furthermore, it allows us to take off our masks and relieve hospital resources.
- It helps the world to return to normal. We can then go back to school and follow our normal schedule.
- Then, more people can go back to work and this in turn is good for the economy.

Against (Team B)

- We can avoid vaccination through being careful.
- Up to now, people are still unsure whether it is safe or not to take the vaccination. One of the common major concerns is the unknown possible side effects.
- It may even be fatal for some people with long term or unknown diseases.

BACK TO
SCHOOL

Should We Keep Half-day School?

For (Team B)

- For whole day school, students would need to take their mask off for lunch. Therefore, there is a greater chance of getting COVID-19.
- Students can be more relaxed and have more energy to learn effectively.
- We can have more time in the afternoon to do homework and prepare for exams.
- If we have questions about our studies, we can ask our teachers through Teams.
- We can still continue to have activity classes online.

Against (Team A)

- We can have more time to study at school and teachers can give immediate feedback at school.
- Students are getting lazy because of half-day school.
- Many activity classes are cancelled because we can only have half-day school. Students should join some extra-curricular activities.
- Some parents cannot go to work because their children go home early.

Anti-COVID-19 Products

Robot Helena

By 6B Lily Ouyang

To prevent the spread of COVID-19 virus, people worldwide are practising social distancing. Helena is a robot which can help reduce the chances of being infected. It can offer a touchless delivery service and serve as a cleaning robot.

Helena can help you deliver things. You can open the lid on the top and put something like food, books or documents inside. Then, you can instruct Helena to go to any destination in your building. There is a sensor on the lid. When you are trying to touch it without wearing gloves, it will give a 'beep' sound to remind you to wear gloves.

Helena is also a smart cleaning helper. You can put detergent inside and set the timer for cleaning the floor. Apart from removing dirt on the floor, Helena can also kill COVID-19 virus.

This robot is blind friendly. There are two speakers which help the visually impaired users give verbal commands to Robot Helena.

Open the lid of the collection box and put the items to be delivered inside.

A handle for tying huge items that cannot be placed in the collection box. Helena can pull the item along the way to the target destination.

The bottom part is used for cleaning and disinfecting the floor.

Mini rubbish bin for disposing used gloves.

Place large item here.

This alarm will ring when there is a thief.

Open the side door and put in the item to be delivered.

Little Delivery-Bot

By 4E Michael Wong Lok Yan

Little Delivery-Bot is a robot that helps deliver things to other people. You can open the side door and put things in and tell it where to go. When the items are too large, you can place it on the top of the robot.

It is safe to use Little Delivery-Bot to deliver things because the side door is locked while your delivery is in progress. When someone takes away the items on the top of the robot, the alarm in front will start ringing and the robot will chase after the thief.

When the robot arrives at the destination, it will automatically unlock the side door so that the receiver can take out the items.

Birthday Crossword Answer Key

Students' Good Work

A Postcard

4th June, 2021

1A Coco Wong Man Ho

Dear Walden,

We are having fun in Japan. We are now in Tokyo Disneyland. I am eating an ice-cream. Mum is taking photos with us. Dad is drinking water. My brother is reading a map. My sister is listening to a song.

See you soon.

Love,
Coco

What Can You See?

1B Enzo Law Yi Shun

Look at the turtles.
They are under the trees.
They are big and hard.
They are green.
They are happy.

A Safari Park

This is Happy Safari Park. There are four birds. They are black. They are in the sky.

1C Wendy Jiang Nim Yan

There is a rabbit. It is beautiful. It is cute. It is big and fat. It is on the grass. It is white and pink.

There are two pandas. They are lovely. They are brown. They are fat. They are under the tree.

There is a lion. It is fierce. It is big. It is by the pond. It is black. It is angry.

My Teacher

1D Marcus Li Tsz Long

This is Samuel.
His T-shirt is black.
His hair is short.
He has an orange shopping bag.
He is my English teacher.

My Friend

1E Anna Sun Mung Siu

This is Jay. Jay.
His T-shirt is green.
His trousers are blue.
His shoes are black.
He is six years old.
He is my best friend.
He is brave.
I love him so much.

Free Time Activities

2A Kenny Lin Chun Kit

My name is Kenny. I am seven years old. I study in Lok Sin Tong Leung Kau Kui Primary School (Branch). I go to school on foot.

I play computer games on Mondays. I have painting lessons on Tuesdays. I have skipping lessons on Wednesdays. I'm free on Thursdays. I have dancing lessons on Fridays. I have cooking lessons on Saturdays. I have swimming lessons on Sundays.

I am pleased to have all these activities in the week.

My Weekly Activities

2B Timothy Mok Tsz Lok

My name is Timothy. I am eight years old. I study in Lok Sin Tong Leung Kau Kui Primary School (Branch).

I have piano lessons on Mondays. I read books in the library on Tuesdays. I have drawing lessons on Wednesdays. I study with my tutor on Thursdays. I visit my grandparents on Fridays. I go to Brownies on Saturdays. I go to church on Sundays.

I am pleased to have all these activities in a week.

Let's Help at Home

2C Moses Tsang

My name is Moses. I am seven years old. I study in Wonderful Primary School. There are 22 students in Class 2C. They all help at home. They are helpful.

Billy is my classmate. He always helps at home. He waters the plants in the living room. He sweeps the floor after having dinner. He hangs up the washing and folds the clothes. He doesn't iron the clothes because it is dangerous and he may hurt himself.

He is a helpful and kind classmate. I love him so much!

My Day

2D Cyrus Ho Ho Tung

On Sunday, John and his parents have dinner at seven twenty in the evening. They are in the dining room. They are happy.

At eight ten in the evening, John plays in the living room. Mum asks, 'Did you do your homework?' John doesn't listen to his mum and he keeps playing with his toys.

At ten o'clock at night, John doesn't do his homework. He is still playing with his robot. Mum feels very angry and she asks him to go to bed at once.

The next day, his teacher feels very angry because John doesn't do his homework. John's teacher scolds him angrily and asks him to do his homework after school. John feels sorry and sad.

My Day

2E Karsten Tong Pok Yiu

Today is Monday. At 7:20 in the evening, John and his family are having dinner. It is yummy and delicious.

After dinner, John plays with his toys. "Did you finish your homework?" Mom yells. John says, "I have finished my homework." However, John is telling lies. Mum goes to John's bedroom and checks his homework and finds out that John does not finish his homework. Mum wants to talk to him but John is already sleeping.

The next day, his teacher is super angry. The teacher tells his mum. After school, John goes back home. His mum is extremely mad.

A Diary

3A Adonis Wong Ching Hin

9th March 2021

Sunny

Today is my second day at the campsite.

In the morning, I changed my clothes and I had two energy bars for my breakfast. Then I stroked the dogs. They were fluffy.

In the afternoon, I went to the park with my family. I watched other people who were playing card games. Then I played mobile games and stroked the dogs again. We flew a kite in the sky. It was exciting!

In the evening, we went home by car. Lastly I was so tired that I went to sleep instantly. Secretly, I was actually very excited.

Jason Wants to Be Strong

3B Terence Leung Ming Chun

Jason is carrying some books. He is tired because the books are too heavy. He is sad.

Jason drops the books on the floor. A girl laughs at him. She is mean.

So, Jason wants to be strong. He starts going to the gym every day to work out. He drinks one bottle of milk every day too to get strong and healthy.

A few months have passed. Now Jason is strong. He can lift more books now. When the girl comes down the hallway, she sees Jason carrying a lot of heavy books. She praises him.

Jason Wants to Be Strong

3C Kelly Lam Ka Yan

Jason is taking some Chinese books to the classroom. He is weak. He is tired. He is careless. He drops the Chinese books on the floor.

Aimi is Jason's classmate. She laughs at him. She is bad. Jason feels embarrassed.

Jason wants to be strong. He does a lot of exercise such as playing badminton and football. One month later, he becomes a strong person, and no one laughs at him anymore.

Birthday Surprise

3D Coco Pan Sing Tung

It was Jacky's mum's birthday last Friday. Jacky and his dad wanted to cook lunch for Mum because they wanted to give Mum a birthday surprise.

They went to a supermarket to buy some vegetables, eggs, meat and so on. After they got home, Dad made potato soup and Jacky beat the eggs. Jacky thought Mum would enjoy the yummy food.

When Mum went home, she saw the food. She was happy and wanted to eat the food at once. Mum ate the food and shouted, 'Oh! It is too salty!' She drank a lot of water.

At last Mum could not eat any food because she drank too much water. She was full.

A Diary

3E Yolanda Pan

5th May 2021

Sunny

It was sunny so I ran in the morning. After that I chatted with my best friend Kelly.

In the afternoon, I painted a picture. Then I played basketball with my brother and sister.

In the evening, I tidied my bedroom because it was very messy. There were a lot of toys on the floor. Then I studied for my exam.

My Resolutions

4A Markus Chen Chit Hei

My name is Markus Chen Chit Hei. I am in Class 4A. After the summer holiday, I will be in P.5. There are a few things I want to do in the new school year.

At home, I am going to take care of my baby sister and brother. Then my parents will be happy. At school, I am going to keep a diary because I want to improve my English. To stay healthy, I am going to eat a lot of vegetables.

In the end, I will try to follow my new resolutions. I think I can do well in the new year.

An E-mail

4B Hinji Wong Tsz Hin

To: rosecheung@sunnynet.com

From: sandylam@happymail.com

Dear Rose,

I am sorry to hear you didn't have a good day at the camp.

If you want to be fit, you need to eat more vegetables and eat more grain products. Fruit and vegetables are good for you. You need to eat more fruit. Too much sugary food is bad for you.

I will enjoy the activities and food at the camp with you next year.

Love,
Sandy

Got Lost in Hong Kong

4C Khaled Cheung Ka Lok

Mr. Brown was a tourist. He came to visit Hong Kong last month. He did not know where to go. He asked the receptionist at the hotel for some ideas.

Mr. Brown asked, 'Excuse me, I don't know how to go to Tsim Sha Tsui.' 'You may take the bus or MTR to Tsim Sha Tsui. You can take photos at the Avenue of Stars in Tsim Sha Tsui,' said the receptionist. Mr. Brown said, 'Thanks, I prefer to take the MTR. How do I go to the MTR station?' The receptionist replied politely, 'First, go out of the hotel. Next, go straight ahead. Then turn right. The MTR station is opposite the clinic.'

'Thanks a lot,' said Mr. Brown.

After that Mr. Brown screamed, 'Oh, where am I?' Mr. Brown was going the wrong way and he got lost. He felt worried.

Fortunately, Mr. Brown found a policeman. He asked, 'Excuse me, Sir. I am lost. How can I get to Tsim Sha Tsui MTR Station?' The policeman helped him go to the station. Mr. Brown finally found the MTR station and he took the MTR to Tsim Sha Tsui. He bought some souvenirs for his friends and family. He felt great!

Rapunzel and the Hunter

4D Kayden Lin Ngai Sing

Once upon a time a witch put a beautiful and pure girl in a tall tower. Her name was Rapunzel. One day Rapunzel saw a handsome and cool hunter and let down her long hair through the window. The hunter climbed up her hair.

'I'm here to rescue you', smiled the hunter. 'Oh! Your teeth are black and dirty. How often do you brush your teeth,' asked Rapunzel.

The hunter was shocked and surprised. 'I brush my teeth twice a week,' he replied.

'You ought to brush your teeth twice a day. Come back when your teeth are clean and white,' said Rapunzel.

'OK. I'm going to brush my teeth twice a day. Then my

teeth will be nice, clean and white in a week's time,' said the hunter.

The next week the hunter climbed up Rapunzel's hair again. He walked towards Rapunzel. 'Ugh! Your feet smell awful. How often do you wash your feet?' asked Rapunzel.

'I wash my feet once a month,' said the hunter.

'You ought to wash your feet once a day...' started Rapunzel.

The hunter ran to the window. 'You are too bossy! I will never come back again!' he said. He climbed out of the window and never came back again.

Being Late for School

4E Yiu Miu

Calvin liked playing computer games. One night, he played computer games until almost half past twelve. The next morning, he got up late. He ran quickly to the bus stop but he still missed the bus. He had to wait for another bus.

Calvin was late for school so the teacher was very angry. He said, 'Calvin! Why are you late for school again? You ought

to set your alarm clock before you go to bed. Then you will get up on time and won't be late for school!'

Calvin promised the teacher he wouldn't be late, 'Sorry, I'm going to go to bed earlier and set my alarm clock.' Calvin kept his word from then on. He was never late for school again.

A Day in a Country Park

5A William Lun Cheuk Pan

Last Sunday, the weather was good, so my family and I went to a country park. My dad said, 'Let's go by taxi. It is fast and convenient.' I replied, 'Although travelling by taxi is cool, fast and convenient, it is expensive!' We wanted to get there fast, so we called a Go Go Van because it was cheaper than a taxi. I was excited and thrilled because it was my first time to go to a country park.

In the country park, we had a barbecue first. Then I went for a run because I needed to lose weight. I asked a stranger, 'Hi, please tell me how far it is from the starting point to the end of this jogging track?' The stranger replied, 'It's a long way.

It's about five kilometres.' I said, 'Thank you. How long does it take?' He said, 'It should take one hour for you.' Then I started running.

One and a half hours later, I finished my run and then I went back to the BBQ site. Suddenly, the weather turned bad when we were about to grill the food. We ran to the visitor's centre for shelter from the rain. Unluckily, we got lost.

Later, I found out that the stranger I asked the questions before was a policeman. He took us home because he had a car. That night I was tired and I felt ill. I had a fever!

Myself

5B Achilles Wong Ching Naam

My name is Achilles. I am eleven years old. I am currently studying in Lok Sin Tong Leung Kau Kui Primary School (Branch). I live with my brother, my mum, my dad and my grandma. My mum and dad are both teachers. I enjoy watching TV with them.

In my personal opinion, I am a smart student since I read a lot of books every day. My favourite subject is English as I have been learning English since I was a baby, thus it is extremely easy for me. I also try to help others more often during English lessons. After school, I go to the seventh floor and do my

homework. At weekends, I either go shopping or stay at home and play video games, but I like reading books the best. I love reading Harry Potter most because it is very exciting. I wish I could become Harry Potter one day. I also ride my bike every Sunday.

I would like to be a doctor when I grow up because I want to rid the world of the COVID-19 pandemic and save lives. In order to do that, I will need to study hard and learn more new things. Finally, I would like to get into a good secondary school and make some more new friends.

Myself

5C Yelena Ng Tsz Ying

My name is Yelana. I am ten years old. I am studying in Lok Sin Tong Leung Kau Kui Primary School (Branch). There are four members in my family. They are my father, my mother, my little sister and me. My father is a warehouse manager. He is hard-working. My mother is a shop assistant. She is a person who is not afraid of hardship.

I am a hardworking student and I learn English vocabulary every day. My favourite subject is Chinese because I am good at Chinese. I go home after school. I like painting. I paint with

my little sister twice a week.

My favourite book is 'Three Little Pigs' because this book is interesting and the pigs are so funny. My favourite sport is volleyball because I can make new friends and I can stay healthy.

I want to be a painter when I grow up because I like painting. I will explore the world to give me more ideas on what to draw and paint. In secondary school, I will study harder and realize my dream.

A Careless Inventor

5D Miko Ku Ming Yuk

Dr Oops was a careless inventor. One day, he wanted to make a robot so that it could help him do a lot of things. He wanted the robot to do a lot of housework.

Dr Oops used a saw to cut a piece of wood. Then he folded the metal in half. After that he used a lot of materials to make the eyes, ears, legs and arms. The robot was made of plastic, glass, metal and wood.

However Dr Oops was careless. He made one more hand

and one less leg so the robot had three hands and one leg. The robot could not stand. His friend, Dr Smart, asked him, 'What can the robot do? It cannot stand.' Dr Oops said, 'It can wash the dishes, sweep the floor and clean the windows for me.' Dr Oops felt very happy because the robot could do the things he told it to do.

But, in the end, the robot could only clean the floor because it could not stand so the room was still very dirty. Dr Oops didn't want to fix the robot because he was lazy.

A Day in a Country Park

5E Sandy Tseng Lai Ching

Last Sunday, I went to Tai Tong Country Park with my family. My sister and I were very excited. My mum and dad prepared a lot of snacks and food for us. We went to the country park at 9 o'clock in the morning. We went there by bus.

First we went to the barbecue site to have a barbecue. There were not many people. We sat down and started to cook the food. We cooked a lot of pork chop and fish balls. They

were very yummy.

Then we went kite flying. It was so much fun. Suddenly, I saw someone familiar. It was Andy Lau! He is a famous actor. We took photos with him.

In the end, we shared some snacks with Andy Lau. Then we went home. I was so happy. What a good day!

Save the Endangered Animals

6A Kerena Chow Kin Lam

I am Chow Kin Lam, Kerena. I work for 'World Wide Fund for Nature'. It is an organisation that promotes the protection of the environment. I am writing because the endangered animals are facing a lot of problems now. I want to ask people to take actions to save them.

The major problem is that people have destroyed a lot of Earth's resources. First people destroy forests and bamboo forests for building houses, selling wood and so on. Thus, there are fewer and fewer places where the wild animals can live. There is also not enough bamboo for pandas to eat. People should stop destroying forests and bamboo forests.

The second problem is too much fishing. People catch reef fish for money. They sell them in restaurants. Therefore,

there are very few reef fish left in the sea. People also fish too frequently. Therefore, the sea animals do not have enough fish to eat so they die. Some sea animals, for example, sharks will become extinct.

The last problem I want to voice out is too much hunting. People kill tigers for their fur and use them in medicines. People also hunt elephants for their tusks and hunt rhinos for their rugs. There are very few left in the world. Therefore, people should stop hunting the wild animals.

I hope the readers will help protect the endangered animals. Please do it before it is too late!

Eric and a Genie

6B Lily Ouyang

A long time ago, there was a little boy called Eric. He lived in a magic village with his mother. One day, Eric cleaned the house. When he wanted to donate old toys to a charity, a bottle dropped from the box. Then a genie appeared.

The genie could give Eric a wish. Eric wanted to be taller. But the genie's magic was too strong. Eric became taller and taller. Eric was as tall as the roof! Eric started crying. He said, 'Oh no! I'm too tall! I want to change back!' But the genie said, 'I'm sorry, but I just know how to make people taller. I don't know how to make people shorter.' Eric was disappointed. Eric asked, 'Then what should I do?' Learn it by myself?' The genie continued, 'We can go to the mountain near the village. There's a wizard. He can help us.' Then they started their journey.

They climbed the mountain. It was difficult because there

were a lot of magical animals made by the wizard. They were too strong. However, they managed to get to the wizard's house. They knocked at the door. The wizard came out and let them in. The genie told him everything. The wizard said, 'I know you really want to be a normal person. I can help you. You can be a normal happy boy, but all the villagers in your village will not be happy anymore.' 'Then I'll say no! I can't be selfish,' said Eric without the slightest hesitation. Next Eric kicked the door open and left.

When Eric went back to the village, all the villagers were surprised. Eric's mother asked, 'Oh my gosh, my son, why are you so tall?' Eric told her everything. At first, the other villagers thought Eric was a monster, but Eric helped them to do a lot of things. Finally, the villagers were happy forever.

A Good Boy

6C Dickson Chau Yu Ching

I like helping people. Last Sunday I helped my mum sweep the floor because she was very busy. I tidied up the living room too.

Last Monday, I helped my teacher to clean the blackboard. My teacher said, 'Thank you!' and she gave me a smile.

After school, I went home by MTR. I saw an old lady

standing in the carriage. I told her, 'Please take my seat!' She asked, 'Really?' I said, 'Yes, sure!' She said, 'Oh! Thank you!'

When I went home, I met the old lady again. She was my new neighbour. The old lady came to my home and told my parents, 'Thank you! I have never seen such a helpful boy! Thank you very much!' I was so proud of myself.

Save the Endangered Animals

6D Michelle Loe Yi Fei

I am writing to address the problems faced by wild animals. The wild animals are becoming endangered because of human activity.

The first problem, people keep cutting down trees or keep destroying bamboo forests to build more houses. Therefore, there is not enough bamboo for pandas to eat. Pandas or other wild animals will be extinct unless people stop destroying the bamboo forests and their habitats.

The second problem is over-fishing. People keep catching reef fish to sell in restaurants for money. Therefore, there are

very few left in the sea. Reef fish or other sea animals will be extinct unless people stop catching and eating them.

The third problem, many sea animals are endangered. For example, people keep killing sharks for shark fin soup or whales for their oil. This decreases the sea animals' population and now there are very few sharks and whales left in the sea. Sharks and whales will be extinct unless people stop killing them.

People should be more concerned about the survival and the livelihood of wild animals and stop destroying the forests and their habitats.

A Day I Will Never Forget

6E Kaka Li Ka Lam

Two years ago, we were in P4. We went to Cheung Chau for our school picnic. On that day, we arrived at Cheung Chau Ferry Pier in the morning. We were hot and thirsty. The teacher said, 'There are street snacks and shaved ice.' When we heard shaved ice, we immediately asked the teacher where we could get some.

Then we went to the beach to play. We played with sand, picked up shells and played with water. When the waves rushed

to the shore, we all trotted back because we were afraid of getting our trousers wet. Finally, we sent someone to collect up the shells we had picked up together. Then the teacher asked us to gather and went back home.

At last, we were very reluctant to part. I regret that I didn't cherish the time we were together. I should cherish the one month left before graduation and get along well with my classmates and teachers.

Secondary School Life of our Graduates

By Dave Liu Miu

(2019-2020 Graduate)

Let me introduce myself first. My name is Dave and I am a form one student in Heung Yee Kuk Yuen Long District Secondary School. I am glad to share some of my experiences of how to adapt to secondary school life.

Actually, it isn't difficult. The most important thing is to have a good relationship with the classmates and teachers. In a nutshell, make more and more friends in school. That will help you a lot. Don't be shy! Be brave to talk to others. In my case, after we came back to school to have face-to-face lessons, I have made a lot of friends and adapted to the life of secondary school easily.

Secondly, the homework in form one is not that much! Even less than primary school. Therefore don't be afraid of the homework of secondary school, and try to finish all homework carefully. The biggest challenge for me is that I come across a lot of new vocabulary in different subjects. At first I was confused and disoriented. In the first month of secondary school, I couldn't even understand what the teachers were talking about in the lessons. My solution was to consult a dictionary to understand the words one by one after school and I wrote down meanings of the words in a vocabulary book. I revised them on my way to school. Luckily, after I had

done this, I caught up pretty fast. I could understand what the teacher and books were talking about.

Because of the COVID-19, we cannot participate in activities as usual. Therefore, I didn't join any activities in school. I also have not seen the faces of my classmates and teachers without their masks on due to the current pandemic. This is a bit out of my expectation of what my secondary life should be so I really hope that things will return back to normal soon.

Finally, my immediate goal is to get a good result in my final examination next month. Therefore, I will study harder to achieve my goal.

By Gorden Teng Hung Li

(2019-2020 Graduate)

Hi, LKKB's friends!

How do you do? My name is Gorden Teng and I graduated last year. Yes, I was your schoolmate before. I spent six years of my happy childhood at LKKB. And now I want to share with you my secondary school life.

I started my secondary school life last September. My new school is called The Hong Kong Management Associated K.S.Lo College. I know some of you may be afraid of starting secondary school life. But believe me, it is not terrible at all. As long as you prepare yourself adequately for your new school life, you will not find it difficult. For example, try to improve your English during the summer holiday. It can help you adapt to the English teaching environment.

My favourite subject is Science. It is taught in English, but don't be afraid. You will find it very easy to understand the terms and definitions by using your phone or tablet to scan the QR codes on the textbooks, then you can watch the videos. If you still don't understand, just ask the teachers. They would love to answer your questions.

Because of the pandemic, we don't need to go to school very often. When I have problems solving difficult questions at home, I will ask my classmates for help by using WhatsApp or WeChat. We will discuss the questions online and solve the problems together. This is called teamwork.

I like Science very much because it is very exciting for me to conduct experiments in the laboratory. I can use the microscope to examine germs, organisms and use the Bunsen burner to heat up the substances to observe their changes. It is amazing! But be careful, you need to follow the safety rules because accidents may cause serious injury.

So far, I really enjoy my secondary school life. I hope I can learn more interesting facts and widen my knowledge. I will do my best to get excellent results and achievements. It is my pleasure to share my new school life with you. Wishing you all the best. Wishing you good health, happiness, and success in your lives.

Best regards,

Gorden Teng

By Minnie Gu Ruitung

(2019-2020 Graduate)

Hi my junior sisters and brothers,

I am a student that graduated from the school last year. And I am now a secondary one student in Po Leung Kuk Tung Yuk Tien College which is located in Tuen Mun. As a secondary one student, there are many difficulties that I faced in my secondary school.

First, there was a big problem with my social life. I had no friends there! Because of this, I felt alone during the first two months. I could not communicate well with my classmates and teachers because of my shy personality. At first, I did not have any common topics with my classmates. But, as the time went by, I found out that one of my classmates also shares the same interests as me. And so I made friends with her! So if you cannot make a friend in your coming secondary school life, try to find someone that has the same interests as you!

Second, I also had some problems with my studies. Although I was rather good in English when I was in primary school, I found it really hard to catch up when I went to secondary school because many of my subjects were all taught in English. Therefore, I needed to work harder than I did in primary school. So, I think I should have started studying my subjects earlier during the summer holidays.

Finally, I want to share an interesting event that happened in my school. My class is a very quiet class. Once there was a bee inside our classroom. Our teacher thought that we would scream and hide away. However, we said nothing and even kept silent while the bee was flying over our heads! Our English teacher was very shocked when she noticed our response! She did not expect that we could keep our cool even when there was a bee.

In the end, I wish all of you all the best in your future studies!

The Amazing Life in Shung Tak

My name is Louis. I am now studying in Shung Tak Catholic English College. My secondary school life in Shung Tak started with Zoom classes. However, I received some good news. We could resume face-to-face lessons from the 23rd September of 2020! I was very excited. On that day, I entered the school, I was excited about meeting my new classmates.

My best friend is Andy. He is a kind and an outgoing person. We discussed a lot of topics including the knowledge we learned from our lesson and the NBA. I enjoy spending time with him.

Students in our school build very good friendships. We have a lot of unforgettable memories in school. We play basketball together in PE lessons, and once we tried to cook Chinese tea eggs in TL lessons. We all enjoy the time with our classmates and our friendships have improved a lot.

The subjects in secondary school are not difficult at all. I am able to manage my studies well. There are subjects which we did not have in primary school, and I have great interests in them. For example, Chinese History, Geography and etc. The teachers in our school are kind too. They will explain by giving examples to widen our knowledge and help us make notes to get ready for the exams.

In Shung Tak, there are a lot of extra-curricular activities. I joined the Unity and drone class as I am interested in STEM. I also joined the debate team as I think joining the debate team is a good chance for me

to improve my speaking skills. Besides extra-curricular activities, the school has also organised the OLE (other learning experiences) period for us. There are workshops for DIY, competitions and etc. We learned a lot of new knowledge and skills.

The school life in Shung Tak is amazing. I hope that the pandemic will be over soon so that I can spend more time with my classmates and teachers and especially try eating lunch in Shung Tak's canteen!

Let's Have Some Fun!

Sentence Making Game

2 +

Designed by 5A Yan Cherish
