School Highlights

APRIL 2022

DISINFECTION ROBOT SIU KUT

'Siu Kut' is a disinfection robot. It can spray aerosolised disinfectant to kill viruses and bacteria. Every day after school it helps to clean and disinfect our classrooms, shared spaces, and all public spaces in our campus to maintain a hygienic environment.

MAY 2022

SMILING EYES DAY

Our school held a Smiling Eyes Day on 20 May. All of us stuck a smiley sticker on our masks to remind ourselves to stay positive and cheerful. We also had a clown visit our school and organise some fun activities for us during recess. That day, there smiles and laughter everywhere. Although we had our masks on during the pandemic, we could still smile with our eyes.

JUNE 2022

SMILING ORANGE FOR FATHER

On 17 June, we made use of some stickers to create smiling oranges to honour our fathers on Father's Day. Apart from expressing our love, we used the smiling oranges to spread happiness to families.

I'm sure my dad will be happy to see my funny smiling orange.

Look! My smiling orange is so cute!

Welcome to English Adventure Land

By 4A Terrence Leung Ming Chun, 4D Bryan Ku Lok Yan and 5A Jason Tang Cham Sum

The school is excited to announce the opening of a brand-new space. It is called the English Adventure Land and it is located on the third floor.

There is a little garden on the outside with lots of plants and flowers. It is called the English Garden. There is a toy house that you can play inside too. The garden is so cool!

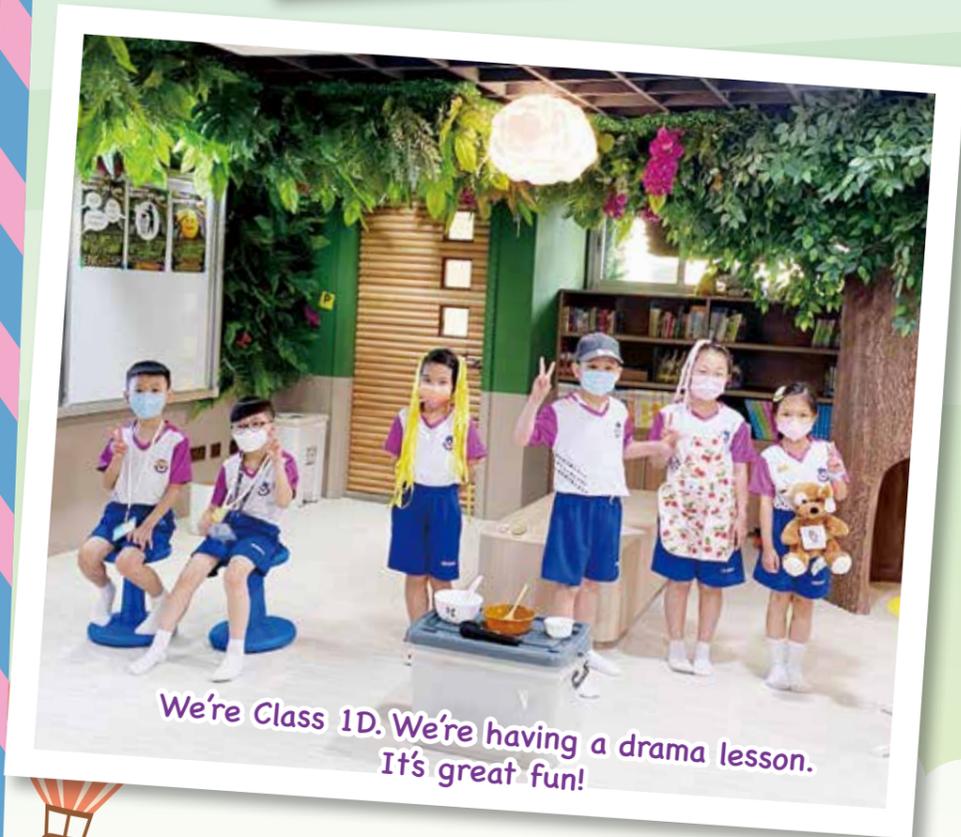

When you set into our English Adventure Land, you will see a playpark with a slide, swings and even a treehouse. There are stuffed animals to play with and lion cushions to sit on. We had so much fun playing in the new English Adventure Land.

There are two big SMART TVs in the room for watching movies or to support learning. Apart from that, there is a reading corner near the big tree.

We love going to this room because we can play and learn English here. Come and see it for yourself!

We love reading inside this tree hole!

We're Class 1D. We're having a drama lesson. It's great fun!

5B Kelly Yung Wing Shan

'The new English Adventure Land on the third floor is my most favourite place in school. The room looks like a jungle with lots of trees and stuffed animals. It is so nice in there.'

4D Minnie Cheung Nga Yin

'I really like hanging out with my friends in the new English Adventure Land. When we play there, we become over-excited! You should come and see the place for yourself! It's AMAZING!'

We can watch videos and enjoy story-time with our NET-teachers.

We have lots of fun with our NET teachers and English ambassadors.

Come and See the AI-Space

By 5A Hailey Cheung Chi Yiu and 6A Ricky Mak Ham Chi

Our school is a fun place to learn and play. We are excited to announce the completion of our new AI Space!

The AI Space is located on the third floor. It is where the computer room used to be. The room has a space theme so there are stars on the ceiling and cool blue lights. But that is not all! There are comfortable chairs, brand new computers and two SMART TVs!

The outside corridor is brightly lit up with a responsive AI assistant. Our school wants to encourage STEM Learning so we have lots of AI technology.

We love the lights here because they look so cool and beautiful. It is a great place to be excited about.

If you want to find out more information about the AI Space you should come and visit it soon.

The LKKB Students' Voice members are so excited to interact with the AI assistant!

We like the modern design and cool lighting in the AI Space!

In the brand new AI Space, we can learn a lot about STEM and technology.

4B King Luo Qixuan

I love the school's new AI Space and our new English Adventure Land. I can't believe a school would have such amazing facilities and activities for their students! Make sure you visit the English Adventure Land and the AI Space!

Students' Good Work

My Toy

1A Grace Mak Tsz Kiu

I have a lovely teddy bear.
It is tiny and brown.
It is soft and clean.
I like it very much.

Fun with Colours

1B Walters Aiden Joshua

I have a remote control car.
It is yellow, black and grey.
It has two wheels on the top and six wheels at the bottom.
It can drive up to a hill.
It is fun to play with. I love it so much.

What Can You See?

1C Lori Hui Cheuk Yee

Look at the rabbit.
It is by the tree.
It is pink and white.
It has two long ears.
It is cute.

Fun Time

1D Eei Chung Chi Yau

I am Eli robot.
I am wearing an iron suit.
I am a superhero.
There is another robot
behind me.

I am on the volcano.
The volcano is exploding.
The robot is fighting
against a robot drone.
I am very powerful.

Animal Fun

1E Yannes Leung Ying Chi

There is a bunny. It is brown. It is cute and small. It has short ears. It has a short tail. It is on the grass.
There are six fish. They are blue. They are small and fat. They are in the pond. They have big tails.
They are baby fish. Their bodies are small.
There is one dog. It is brown. It is on the grass. It has short ears. It has a long tail. It is small and cute.

My Day

2B Jean Mak Tsz Yiu

John is having dinner with his parents at home in the evening. They like the food so much.
At eight ten, John is playing with his robot, toy plane and blocks in his bedroom. He is happy. His mother says, 'Do you finish your homework? Stop playing!'
The next day, the teacher is very angry because John does not finish his homework.
At the end, John says, 'I am sorry.'

My Day

2A Amy Tse

John, John's mother and John's father are having dinner at seven twenty in the evening at home.

John is playing with his toys at eight ten at night. His mother asks him, 'Do you do your homework?' John doesn't listen to her. At ten-o-five at night, his mother asks him again, 'Do you study for the examination?' John still doesn't listen to her. She is angry.

The next day, John's teacher gets angry because John doesn't do his homework. John says sorry to his mother and teacher. His teacher and his mother forgive him at last.

My Weekly Activities

2C Lotte Leung Yuen Hei

My name is Lotte. I am seven years old. I study in Lok Sin Tong Leung Kau Kui Primary School (Branch).

I have dancing lessons on Sundays. It is fun. I have piano lessons on Wednesdays. I like this lesson because

I like music. I love my Sundays. I go to church on Sundays. I go to church with my grandparents.

Let's Help at Home

2D Joseph Tse Ho Wang

Do you help at home? I fold the clothes, hang up the washing and clear the table.

My classmate, Jonas, likes helping at home too. He sets the table, sweeps the floor and looks after his sister, Jolyne.

We like to help at home. We are good children.

My Best Friend

2E Cici Chu Yui Sze

My best friend is Anna. She is seven years old. She is tall and thin. She has two big eyes and a pointed nose.

She is very intelligent. She does well in all her subjects, especially Maths. She is also hard-working. She studies until very late at night. She is a polite and helpful girl. She always greets everyone with a sweet smile and helps other people. She is a little helper at home. She waters the plants and hangs up the washing.

I hope we can be friends forever!

Meeting the Students of Class 3A!

3A Cheryl Tang Tsz Ying

1,2,1,2,3!

Meet the students of Class 3A!

He is good at running.

He likes PE.

1,2,1,2,3!

We're the students of Class 3A!

This is Angel Hung.

She sits in front of me.

She is good at drawing.

She likes Visual Arts.

This is Andrew Chan.

He sits on my left.

My Classmate

3B Vinci Lee Wing Chi

Sanna is my classmate. She sits between Jason and me. She is beautiful but is short. She has long hair and big eyes.

Sanna is nice and kind. She doesn't play tricks on me. She always looks after me and helps me with my homework. She is helpful.

Her favourite subject is Maths. She is good at doing sums. In her free time, she reads books and watches cartoons with her family.

My Diary

3C Hailey Lee Hei Yi

Sunny and hot

12th June, 2022

What a great day! In the morning, I had a delicious breakfast with Apple at McDonald's at seven thirty. After breakfast, I went to the library with Eirene at ten o'clock. We read and borrowed books there. They were very interesting.

In the afternoon, I was bored so I painted pictures with my friend at home. At 3 o'clock, I had a cooking lesson with my friend at school so I made some cookies. I had so much fun.

In the evening, I was sad so my dad took me to the nearest Haagen-Dazs. He bought me some vanilla ice cream. It was very delicious. Before bedtime, I did puzzles with my mum in my bedroom because I felt bored.

My Diary

3D Hazel Wong Tsz Tsun

19th June, 2022

Sunny

What a great day! Today was Fathers' Day so I painted a picture for my father. Then we had breakfast at McDonald's and played in Tin Shui Wai Park.

In the afternoon, we watched TV at home. The show was really entertaining! Then I played computer games with my father. It was exciting!

In the evening, we went to the cinema to watch a very touching movie. Finally, we went home to share a big cake. The cake was very delicious! Today we had a lot of different activities. What a great day!

A Birthday Surprise

3E Luke Mak Yu Tin

It was Jacky's mum's birthday last Friday. I'm going to tell you what happened. So last Friday morning, Jacky and his dad were chatting about Jacky's mom's birthday. Dad suggested that they buy her a necklace but that idea was a flop because they didn't have enough money. And then Jacky got a brilliant idea! Jacky suggested that they make a special dinner for her.

So, they went to the supermarket. Jacky's dad bought some chicken wings, salt, beef, and some fresh salad. After they left the shop, they were quickly making the special dinner.

Suddenly, Dad accidentally put too much salt in the chicken wings. Dad didn't realise that. When they surprised Mom with the chicken wings, Mom felt disgusted after eating just one bite. However, she still felt happy because she knew that her family made that meal just for her. So, everything went well in the end.

Got Lost in Hong Kong

4A Adonis Wong Ching Hin

Mr. Brown was a tourist. He came to visit Hong Kong last month. He did not know where to go. He asked the receptionist at the hotel for some ideas.

The receptionist said, 'You may go to Tsim Sha Tsui. You may take photos at the Avenue of Stars. You can go shopping at some shopping centres. Mr Brown said, 'How can I get to the MTR station?' The receptionist replied, 'First, go out of the hotel and go straight ahead. Then turn right. The MTR station is opposite the clinic.'

On his way to the MTR station, Mr Brown got lost. He was very worried. He saw a policeman. He then asked the policeman how to get to the MTR station. The policeman showed him the way. Finally they arrived at Tsim Sha Tsui and took some photos at the Avenue of Stars. He bought some souvenirs too. He had a great day.

Bad Eating Habit

4B Ron Tang Ka Kiu

Carmen had bad eating habits. She liked meat but she did not like vegetables or fruit. Every day she only ate a lot of meat, a few vegetables and a little fruit. Her mum said to her, 'To stay healthy, you need to eat more vegetables and fruit.' Carmen thought that her mum was so annoying. She did not listen to her mum.

One day, Carmen and her parents went to Healthy Hotel in Central. She had a lot of delicious food at a buffet. Carmen ate a lot of chicken legs, a lot of French fries, a lot of pork chop and a lot of sausages. Then she ate a lot of strawberry ice cream and a lot of mango cakes. Apart from that, she drank three glasses of cola. She felt delighted because she really enjoyed her drinks. However, at midnight, Carmen did not feel well. Her parents were worried. She got a stomachache so her parents took her to the hospital.

The doctor said, 'Carmen, you ate too much! You need to eat more vegetables and fruit. Don't eat too much meat! You need to eat less meat!' From then on, Carmen changed her bad eating habits. She listened to the doctor.

An E-mail

4C Kyle Wu Shing An

Dear Rose,

I feel sorry that you didn't enjoy the camp.

If you want to be fit, you need to do more sports and eat healthy food. If you do, you will be fit. Rose, if you do not eat vegetables and fruit, you will not be fit. They have lots of vitamins and minerals. Sugary food can give your body energy but too many sweets are bad for your teeth and can make you fat.

I am sure if you take my advice, you will become fit and strong. Next year you will enjoy the camp very much!

Yours,

Sandy

My Resolutions

4D Fish Cheung King Yu

My name is Cheung King Yu. I am now in Class 4D. After the summer holiday, I will be in primary 5. There are a few things I want to do in the new school year.

At school, I am going to read more books and do more Math exercises. Then I will be good at Math and will not fail my test.

At home, I am going to tidy my bookshelf and go to bed early so my room will be tidy and I will not be late for school.

To stay healthy, I am going to eat more vegetables and do more sports to become fit and strong.

I am confident that I will achieve my goals. I think I can do well in the coming year.

A Letter to Uncle Benny

4E Oscar Tsang Hing Tsz

Dear Uncle Benny,

I am happy that you are coming to Hong Kong.

Here is my plan:

On the first day we will go to Mai Po. We can watch the birds and look at Jinga shrimps. And then we can go to Tin Shui Wai. We can visit Hong Kong Wetland Park. We can look at the crocodile, Pui Pui, and some mudskippers. They are cool.

On the second day we will go to Sai Kung. We can eat seafood and do water sports. They are so exciting.

On the third day we will go to Wai Chai. We can visit the Golden Bauhinia Square. And then we can go to the Peak. We can look at the fantastic view of Hong Kong at the Peak.

On the fourth day we will go to Lantau Island. We can ride on a cable car and enjoy the beautiful view. After that we can visit Disneyland and take photos with Mickey and Minnie.

I hope you like my plan.

From,
Jim

A Painfully Fun Day

5A Ivan Chen Haohong

Last Saturday, Karen went to Disneyland with her friends, Lisa and Tom. In the morning, Karen's mum watched the weather report on TV. 'Oh dear! Thirty-six degrees Celsius! It's too hot!' Mum said. She took out a bottle of sunscreen for Karen but Karen refused to put it on.

Karen and her friends took the MTR to Disneyland. They talked about what to play later on. At the park, they went on the rides first. Karen said, 'Wow! It's so exciting!' Next, they watched a parade. Tom cheered, 'It's perfect! I love this parade!' Finally, they walked on Disney's main street. Suddenly, Lisa said, 'Look! There are our favourite characters, Karen! Let's take a photo! Tom, can you take a photo for us, please?' 'OK!' said Tom. When they wanted to go home. Karen looked at her skin and said, 'Ouch! My arms are sunburnt!' 'You should go home and tell you mom!' said Lisa and Tom.

In the end, Karen went home. Her mum saw her and said, 'I told you to put on some sunscreen this morning, but you refused. You should learn from this! Now whenever you go out in the sun, put some sunscreen on.' 'OK, Mum.' Karen said sadly.

A Careless Inventor

5B Ivy Chen Yinuo

Dr Oops was a careless inventor. One day, he wanted to make a robot for his son because his son's birthday was coming. He wanted to give him a surprise. His son liked robots very much so he thought this present would be very suitable for him.

First, he used a saw to cut some wood for the robot's body. Next, he folded a piece of metal sheet for the robot's hands. Then, he used some plastic to make the robot's head. Finally, he used some glass to make the robot's eyes. 'It is a fantastic robot! I think he will like it very much!' Dr Oops said.

Dr Oops expected the robot could walk and dance. It could also follow a lot of instructions. There was only one of its kind in this world. However, when he tried to make it walk, he found that the robot could not do it. Dr Oops was confused. At the same time, Dr Smart came to visit Dr Oops. He looked at the robot and said, 'Of course! It has three arms and only one leg. How could it walk?' Dr Oops said sadly, 'I am too careless.'

Dr Smart said, 'Don't worry. Let's fix it together. I remember your son likes octopus very much. Let's make an octopus robot for him!' 'That's a good idea! I believe he will love it!' Dr Oops said. Then they worked together and made an octopus robot.

Dr Oops' son was very happy to see the octopus robot.

Too Many Computer Games

5C Yiu Miu

It was three o'clock at midnight a few days ago, Ben was playing computer games when his mother came into his room. She shouted at Ben angrily and said, 'Ben! It's three o'clock. You should sleep now!' Ben didn't say anything and quickly went to bed. His room was surely very messy!

The next day, Ben went to school. He forgot that he had an English test. He fell asleep during the English test. Ben's teacher woke him up and told him to wash his face. Ben didn't write anything on his test. When Ben went home after school, he played computer games again! When it was dinner time, he didn't even eat and he kept playing computer games. He also didn't tidy up his room so it was still very messy!

The next day at school, his teacher gave him an 'F' for his English test. Ben felt disappointed with himself. Ben went home after school and showed his mother his result. Ben's mother was very angry. She scolded Ben and said, 'I'm very disappointed with you!' Ben felt very sorry. From then on, he studied hard and he passed his English test! He didn't play computer games anymore.

A Careless Inventor

5D Khaled Cheung Ka Lok

Dr Oops was a careless inventor. One day, he wanted to make a robot. Dr Oops was busy inventing it. First, he used a saw to cut the wood. Then, he used some metal to make the hands and legs of the robot.

The robot was made of plastic, glass, wood and metal. The other parts of the robot were made of wire, steel and tin. The robot could speak different languages too. It was programmed to do housework, cook food, walk and jump.

However, since the robot had three hands and only one leg, it couldn't move or jump very well and its hand even broke. Unfortunately, the robot stopped working. Dr Oops felt sad, surprised and embarrassed when the robot stopped working.

Suddenly, Dr Smart entered his science lab. Then he helped Dr Oops repair the robot by removing a hand and adding a leg to the robot. Moreover, he replaced the hands with a stronger metal.

Finally Dr Oops checked his new robot and it was a success. Dr Oops was happy and said 'thank you' to Dr Smart.

Too Many Computer Games

5E James Chan Yu Yin

Last Sunday, Ben played computer games for a long time at night. His mum found that he was awake at three o'clock so she shouted, "Ben! It's THREE O'CLOCK already!"

The next day, Ben went to school. Everyone in class was working hard for the English test but Ben was sleeping.

After school, Ben took off his uniform and started playing computer games again! His room was messy. Ben even skipped dinner to play computer games.

A few days later, because of his inattentiveness in class and his failure to revise, Ben did poorly in his test. In the end, he regretted it very much so he decided to take his studies seriously and play fewer games.

A Day I Will Never Forget

6A Coco Zhang Tsz Ching

I will never forget the day when I went out to eat sushi with my aunt last Wednesday. It was my aunt's birthday but it was a terrible experience.

Last Wednesday night, my aunt and I went to T-Town Shopping Mall in Tin Shui Wai for some sushi. After finishing our meal, the lights in the mall first flashed for five minutes and then there was a sudden power outage.

Later I felt tired because we needed to climb over dozen flights of stairs in our building for twenty minutes. We also needed to carry an electric bicycle that weighed more than twenty pounds with us while we were walking upstairs. It was very heavy for us. Electricity was only available after eight o'clock the next morning. This electricity outage was a terrible experience for the whole of Tin Shui Wai because we didn't have any elevator service.

From this experience, I learnt that I should do more exercise in my daily life so that next time when I need to walk up a dozen of stairs, it will not be so hard. We should also prepare ourselves for future power outages and get a rechargeable torch light at home.

Saving the Endangered Animals

6B Achilles Wong Ching Laam

I am a member of the World Wide Fund and I am writing to raise your awareness about the problems that endangered animals are facing.

The first problem endangered animals are facing is over-hunting. Humans hunt animals like tigers, elephants and sharks for their body parts, such as their fur, tusks or fins. If this carries on, almost all of the animals will become extinct unless we stop buying products made from endangered animals.

The second problem is habitat destruction. Many animal habitats are being destroyed to make room for farming and houses. Therefore, animals like pandas and leopards are becoming endangered. We can't help them unless we stop destroying their habitats.

The third problem is illegal trading. People catch turtles and other endangered animals as pets illegally. Therefore, we need to stop buying endangered animals as pets in order to stop illegal trading.

In conclusion, I hope that people will stop harming the Earth. For the sake of our homeland, save the Earth before it's too late!

Eric and the Genie

6C Michael Huang Junhao

One day, Eric found a box. He broke a bottle. Suddenly a genie appeared.

Then, the genie granted Eric a wish. Eric wished to become taller, so the genie used magic to make Eric taller. Eric was as tall as a house. Eric said, 'I am too tall,' Eric felt shocked.

Eric wanted to be short. He asked the genie to help him become shorter. He wanted to change back to his normal height.

The genie said, 'I can't help you but you can ask a wizard for help.'

They crossed a river and climbed a mountain to find the wizard.

The wizard gave a magic drink to Eric. Eric drank it and then Eric returned to his normal height. He felt very happy.

In the end, Eric wanted to learn some magic because he wanted to help other people.

Studying for the Examination

6D Yan Chan Lok Yan

It was very late at night at half-past eleven. I was still studying because I had an English Exam. Therefore I must work hard. I was also feeling very nervous because I am not good at English. I was afraid that I would fail the exam. However, when I was studying the vocabulary, I fell asleep. I could not resist the tiredness. I lay on the desk and slept. When I woke up, it was already eight o'clock in the morning. I was very shocked because the English exam started at half-past eight. I had to get changed and go back to school as soon as possible so I just picked up my stationery and ran out.

Luckily, I could get on a taxi and rushed to school. I wasn't late for the English exam. However, I did not remember the things I revised the night before so I failed the exam.

A Day I Will Never Forget

6E Gavin Lam Yat Lung

I will never forget the day when I fell down. It happened last week.

It happened at school. On that day, I played with other children at school. Suddenly, a man bumped into me. I fell down and hurt my knee.

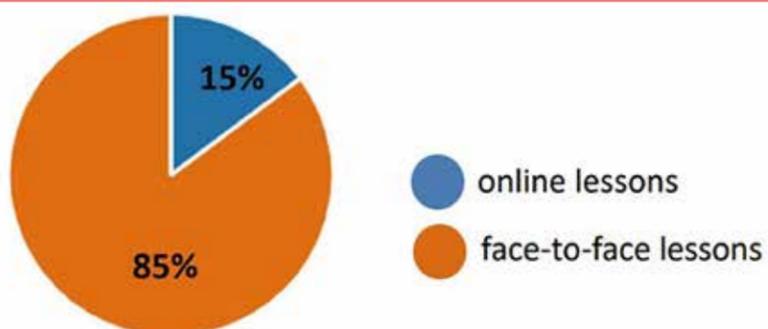

In the end, a school nurse helped clean my knee and put a plaster on the cut.

I felt upset. I thought falling down was a painful experience. From this experience, I learnt we should be careful when playing.

School Survey

In July, LKKB Students' Voice did a survey about our back to school life after the suspension of physical classes. We received 122 Microsoft Forms responses. Here are the results. (By 4B King Luo Qixuan, 4D Bryan Ku Lok Yan and 4D Minnie Cheung Nga Yin)

Q1 Do you prefer online lessons or face-to-face lessons?

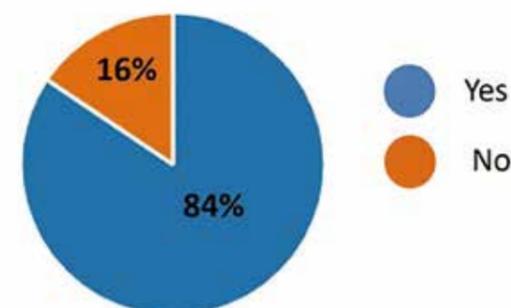

Most students, about 85%, prefer face-to-face lessons. About 15% of them like having lessons online rather than coming back to school.

(By 5B Samson Tang Shue Sum)

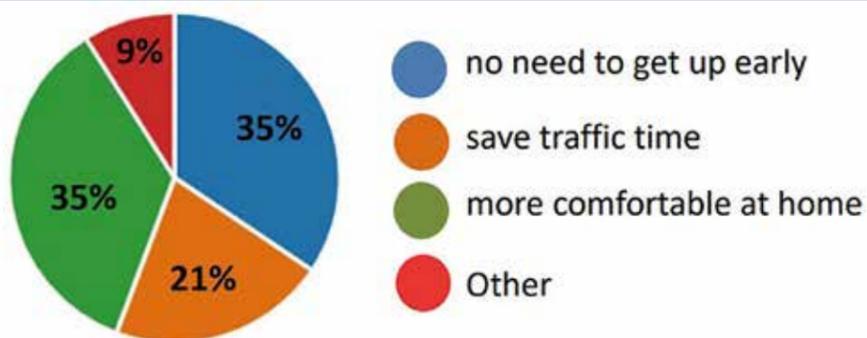

Q2 Do you think students should do rapid antigen test (RAT) every morning before going to school?

All students in Hong Kong have to do a rapid antigen test every morning before going to school. In our school, over 80% of the respondents agreed that we should do a test every day before going to school to ensure that COVID-19 cases are identified at the earliest possible time.

(By 5A Markus Chen Chit Hei)

Q3 What do you like most about online lessons?

43 students think that the biggest advantage about online lessons is that it is more comfortable to be at home. 42 students think online lessons are good because they don't have to get up early. Reduced traffic time is another merit about having online lessons.

(By 5A Jason Tang Cham Sum)

Q4 What do you like most about face-to-face lessons?

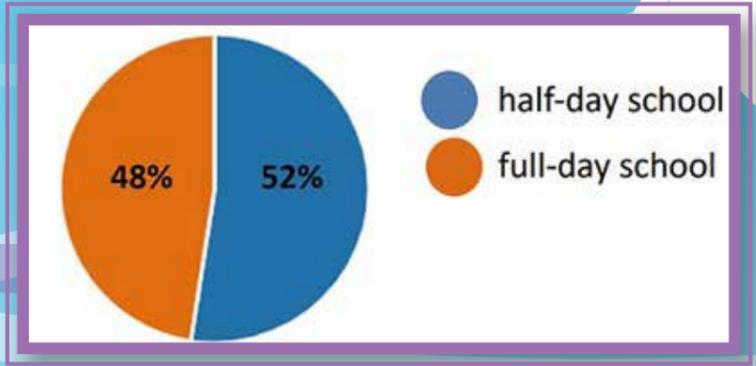

The majority of students in our school prefer to have face-to-face lessons. Amongst all the advantages of having face-to-face lessons, most students voted for 'meeting friends' and 'being more attentive in class'.

(By 5B Taki Sin Nok Wai)

Q5. Do you enjoy half-day school or full-day school?

The number of students who enjoy half-day school is slightly higher than that of full-day school.

(By 4C Jayden Kwong Wing Hei)

Q6. What do you like most about half-day school?

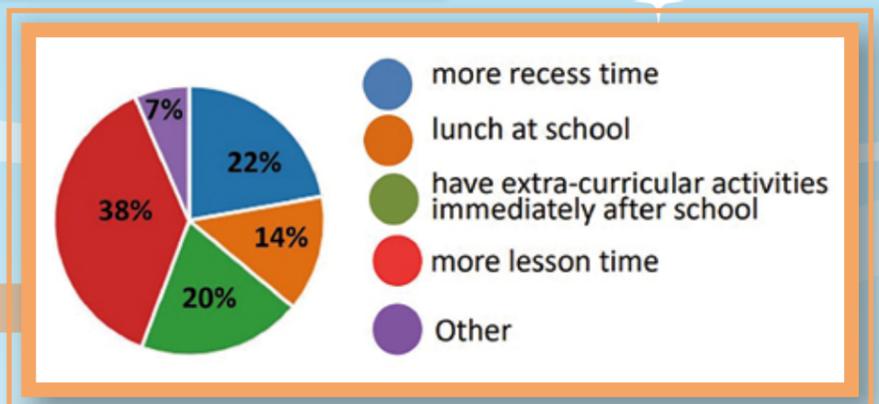

53% of our students like half-day school because they can have more time to finish their homework. 26% of our students enjoy going home earlier.

(By 6A Selena Zou Pui Shan)

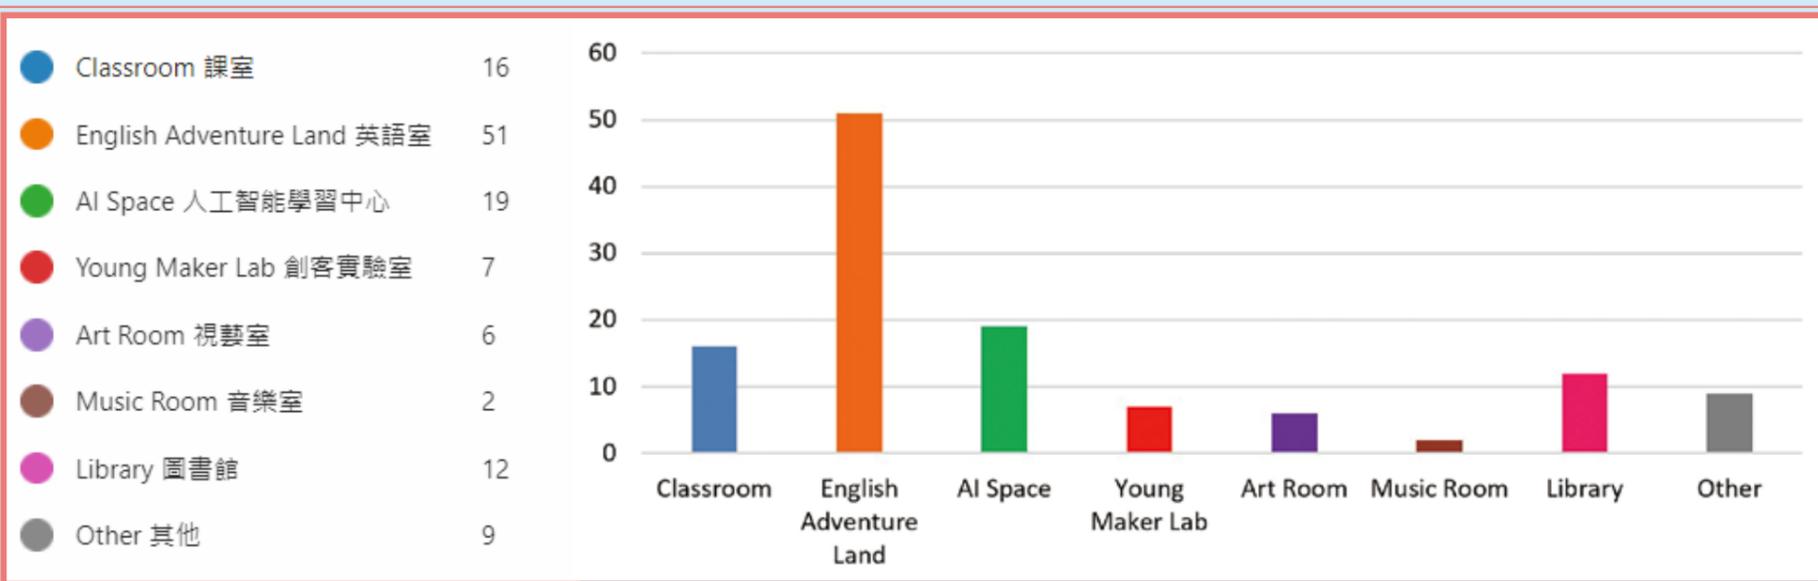

Q7. What do you like most about full-day school?

What our students like most about full-day school is that they can have more lesson and recess time.

(By 4A Chris Fok Cheuk Wah)

Q8. Which is your favourite place in school?

Now that we are back in school, we can have lessons in classrooms and enjoy the facilities in school. Which place in our school is the most popular? The survey result showed that the newly-refurbished English Adventure Land and AI Space are the most popular places. Over 40% of students like the English Adventure Land the best.

(By 5B Michael Wong Lok Yan)

Winter Olympics Event Report

The 2022 Winter Olympics were held in Beijing from 4 February to 20 February. 2,871 athletes from 91 countries participated in 109 medal events. This year, 17 Olympic records and 2 world records were broken. Did you

watch any of the games? Which game did you like watching? Some Students' Voice members had a great time watching the games. Here are some of their favourite Olympic sports.

5B Xu Jelena

I watched the Winter Olympics on TV. My favourite competition was Men's figure skating.

Figure skating has been part of the Winter Olympic Games since 1924. It is a sport which can be played in singles or in teams. The athletes skate on ice, do jumps and spins with music. It is also an art because the athletes have to perform figure skating gracefully.

23-year-old Nathan Chen from America won gold. His performance was wonderful! He is the first Asian American to win an Olympic medal in single skating. He is so cool!

4B King Luo Qixuan

I watched the Winter Olympics on TV. My favourite race was Women's Curling.

Curling is a sport played in teams. It is played on ice. It was added to the Winter Olympics in 1924 in Chamonix, France. The two teams take turns to slide curling stones to the house of the opponent's team. The team which gets the highest score wins the game. Each team is made up of four players. There are medal disciplines for the Men's, Women's, Mixed Doubles and Mixed Wheelchair teams.

Great Britain defeated Japan and won the gold medal in this year's event. I was so happy for them. Japan got silver and Korea got bronze.
