Finally Back to School

6A Louis Chan Ho Hin

Since the third of February, classes have suspended due to COVID-19 outbreak.

When I knew that we could not go to school, I was worried about my studies. I am in primary six, and we have to get ready for our secondary school life. Therefore, I think it is important for us to keep studying. Luckily, during this school suspension period, our teachers had prepared online learning materials and videos for us. We watched the videos and did our homework as usual. Besides watching videos, we also had real time ZOOM lessons at home.

Although we could finish the curriculum online, I preferred having lessons in school. At school, teachers can provide us more support and guidance. When we do not understand what the teacher is saying, we can tell the teachers immediately. Then the teachers can explain again.

To prevent the risk of spreading the COVID-19, we stayed at home all the time and did not get to see our classmates and friends face-to-face. This made me feel upset because this is our final year in primary school. There is not much time left for us to study together in this school. I could only talk to my friends using WhatsApp and WeChat. I really hope the virus would disappear soon.

On the day the Education Bureau announced that classes could resume, I was very excited. The joy was beyond description. In the past few months, I realised the importance of school life. When I am back in school, I hope I can get along with my classmates for one month more. I will cherish and enjoy the last month studying in primary school.

New English Teachers

In October, the newspaper team interviewed the new English teachers here at the school. We asked them lots of questions to find out more about them. This is what we learnt...

Miss Connie Chin

By Minnie Gu Ruitung (6A) & Tung Feifei (5B)

Miss Connie is from Malaysia and she teaches English to P1, 2 and 3. This is her second time to teach at our school. The thing that surprised us most is that she can speak five languages! She likes singing too and says her mouth is her musical instrument.

She likes watching foreign films because she says they can help us learn new languages and she says if we want to become teachers too we need to study hard. That's good advice.

Mr Ravi

By Cherish Yan (4A) & Ricky Mak Ham Chi (4A)

Mr Ravi is from India but he has lived in Hong Kong for 15 years so he loves Hong Kong very much. He teaches all of P6 and he enjoys teaching us all because he says we are all nice. It was his dream to be an English teacher.

Mr Ravi's favourite hobby is cooking because he thinks it's really enjoyable when trying out a new recipe. He can make a very yummy chicken curry.

Miss Wong Bo Chu

By Amaris Zhang Yue Yue (4B), Holly Yang Lok Yat (5A),
Gordon Teng Hung Li (6A) & Louis Chan Ho Hin

Miss Wong is a great teacher who teaches English to 4C and 4D. She has been to many countries, including England, France, Japan, Spain and Italy. Her most memorable experience was 5 years ago, when her students surprised her with a big birthday cake. She felt so surprised, she cried! She likes the students here at our school and thinks we've got lots of energy. She is right.

She likes eating both healthy and junk food. She likes Chicago pizza because it has lots of cheese but she also likes healthy steamed chicken. During her free time she plays games with her children and if she has any time left, she likes to read.

We think all of the new teachers are great and hope they all enjoy their time teaching at our school.

Interesting Places in Hong Kong

5A Chow Kin Lam

There are many interesting places in Hong Kong. We can see and do a lot of things there.

In the New Territories, I like Hong Kong Wetland Park. In there, we can see the crocodile Pui Pui. We can watch the beautiful natural scenery there. We can see the birds and butterflies. We can look at some special plants in there. People feel relaxed in the park.

On Hong Kong Island, we can find Ocean Park. We can see some sea animals and watch an exciting dolphin show. The dolphins are cute and smart. We also can go on rides there, even very young children can enjoy the rides. In Ocean Park, we can visit the giant pandas. They are cute but lazy. They always just play together and sleep.

Disneyland is on an outlying island. It is another theme park in Hong Kong. Thousands of tourists visit the park every year. We can go on the rides and take photos with the cartoon characters. At night, we can watch the fireworks and a parade. It is fantastic.

I love Hong Kong. Hong Kong is a great city. I am so proud to live in this city!

Then, the next model was a boy called Tony. Tony was the little boy with a round face, a big mouth, a small nose and two dimples. He always smiled. He was in a T-shirt and trousers. He was jumping. He looked very happy. Maybe he got full marks in his test.

I liked a model called Peter best because he was very handsome. I think the fashion show was very enjoyable because it was my first time to watch one. I will come again next year.

I would live in Emerald Country if I were one of the characters because I could play with my friends forever.

A New Festival

6B Coco Zou Ho Yan

The name of the new festival is Animals' Day. The celebration date of this festival is the eighth of August. The new festival is a time for my friends, my parents and for other people who like animals too to come together to celebrate animals.

At this festival, we get to feed the hungry animals and keep them clean. Apart from that, people are allowed to take animals home as pets.

This festival can help the poor animals to live a better life. We need to donate money to the animal institutions so that they can adopt more animals and let those poor animals have someone to love them. They would not have to lead a pathetic life.

I think this festival is fun because we can see many animals. I have always loved animals and am excited to set them free whenever I can. Therefore they would have better lives.

We visited the British Museum. It is in the Bloomsbury area of London, and it is a public institution dedicated to human history, art and culture. It is also the first public national museum in the world. We learnt a lot of things relating to ancient history. For example, mummification, porcelain, armors and Chinese weapons and so on. After visiting the British Museum, we went on a River Thames Cruise Ship to see the London's famous historical buildings such as Big Ben, Tower Bridge, London Eye and House of Commons.

We went to Brick Lane Market. We bought a lot of things there, like chocolate, snacks, candies and so on. Everyone was happy!

Then we went to the Imperial War Museum. There were many weapons related to World War I and World War II. What impressed me most was the damaged car that was blown up by a bomb, which symbolizes the disaster and harm brought forth by the war. I hope there will never be any more fights and wars in the world, but only peace and love.

Miss Ip woke me up at half past six, we were all out of spirit because it was too early. In the morning, we went to Larchwood Primary School. First, we had a lesson with P6 students. In the Maths class, we all thought their topic was very simple. Some students did not finish their work but our classmates easily completed the maths questions.

In London, students have ten minutes break for every two lessons. The happiest time for us was recess. We played in the school park with the local students there and made friends with them. After lunch, we helped to serve food in the cafeteria.

In the afternoon, we went to St Helen's Catholic Junior School. Their principal showed us the facilities in the school. I admired their school a lot because their school is huge. There is even a swimming pool where students can have swimming lessons.
