How Karen Spent Her Pocket Money

My name is Zhong Jiabao, Carbo. I'm eleven years old. I am thin and I have a round face. I am studying in Lok Sin Tong Leung Kau Kui Primary School (Branch). I have four family members. We like going hiking together.

My favourite subject is General Studies. General Studies covers many aspects of knowledge, such as history, sociology and other aspects. It can help me deepen my understanding of the world. After school, I go home to do homework immediately.

I play the violin twice a week. Playing the violin can cultivate their love of music. In my spare time, I like reading books. My favourite storybook is 'Geronimi Stilton' because the story is very interesting. It is an Italian children's book series. These books are intended for readers who are aged from six to twelve years old. I first read this book series when I was eight.

I like playing badminton very much. Playing badminton can strengthen and improve my physical and mental health. This sports activity is rather easy. It does not require any expensive gear. It is easy to play.

I will strike a balance between studying and doing more exercises. I hope I can enjoy a happy study life in my future secondary school.

An Accident at Home

Yesterday, Peter's mother was cooking soup because it was her friend's birthday. Suddenly, her mobile phone rang in the living room. She wanted to pick the phone call but she didn't remember that she was cooking.

She went to answer the phone call but she didn't turn off the stove after she had gone out of the kitchen.

Peter came home after playing basketball. He went to the kitchen to wash his hands. He saw the burning pot and said, 'Great! I can have soup today. I like soup best.' He tried to open the lid of the pot and took a look at what the soup was but he accidentally poured the soup on the ground and burnt himself.

Peter's father found that Peter was hurt so he called the ambulance quickly. Peter was sent to the hospital. Peter had to stay in the hospital for a few days.

My Dream Job

I want to be a vet when I grow up because it is a meaningful job. If I became a vet I will cure sick animals.

Vets need to be caring so that they can cure animals. They also need to be hard-working so that they can learn more ways to save animals.

Vets need to be strong so that they can move some large medical equipment or lift heavy animals.

They need to read the instructions for medical equipment and medical journals so that they don't harm the animals.

I think this job is suitable for me because I am caring and hard-working. I am strong too. I hope I can be a vet someday.
